

Any manuscripts submitted to journals, conference proceedings, sector conference proceedings or other publications to be audited and published by the Korean Society of Manufacturing Technology Engineers should follow the following guidelines.

1. The author of the manuscript should be a member of the Korean Society of Manufacturing Technology Engineers.
2. The author is liable for any information contained within the manuscript, and the author has to follow the society's code of ethics in research.
3. The manuscript should not have been published elsewhere and should have the originality that contributes to the academical and technological development in the field of manufacturing. The "Original paper" and the "Technical paper" represent an original research articles on academical and industrial approaches on Manufacturing systems and processes, respectively.
4. The organization of the manuscript should be the following:
  - (1) Title
  - (2) Author [the order of the author's name should follow the amount of contribution. If the first author is not the corresponding author, a separate correspondence may be named]
  - (3) Abstract
  - (4) Keywords
  - (5) Introduction
  - (6) Main Text (Theoretical analysis, experimental methods, results and discussion, consideration)
  - (7) Conclusion
  - (8) Acknowledgements
  - (9) References
  - (10) Appendix and other
5. The manuscript should be written in Korean only, Korean and Chinese Character or English only. If the term cannot be translated effectively, the term in its original language should be written in.
6. The title should be short as possible and the keywords should be 4 ~ 6 words in English.
7. If the manuscript is in Korean or with Chinese Character, the title and author should be written in Korean and then in English. Next, the abstract and keywords should be written in English, and should be 100~150 words. There should not be a chart or footnote in the abstract.
8. If the manuscript is in English, the title and author should be written in English and then in Korean. Next, an English abstract should be written, Keywords should be English, main text should be in English.
9. The figures or tables in the manuscript should be cleanly drawn. The table or figure should be captioned in English (Table 1···, Fig. 1···) and according to number should be mentioned the location and explanation within the main text. The table's caption should be located center top of the table and the caption of figures should be located on the center bottom of the figure.
10. Numbers within the manuscript should be Arabic numbers, units should be SI units, numbers and units should have a space between them.
11. Quotations and references should be numbered and labeled an index number following the sequence of use in the text. To label the reference within the text, superscript the number in parenthesis either within the sentence or at the end of the sentence.
  - (1) ~ at the end of the sentence<sup>[1, 3]</sup>.
  - (2) ~within the sentence<sup>[1-5]</sup> superscript the number in parenthesis~
12. References should be cited in English as followed. Author's last name, First initial. Two or more authors should be separated with a ",". All the references should end with a period.
  - A. Book: Author, Year of Publication, Title (Italics), Publisher, Published Country (Country).
    - (1) Murty, K., 1976, Linear and Combinatorial Programming, Wiley, New York.
    - (2) Teutsch, T., Zakel, E., Azdasht, G., 2006, Advanced Packaging, PennWell, Japan.
    - (3) HyperMesh, 2008, HyperMesh Version 7.0, Altair Engineering Inc.
    - (4) ANSYS, 2005, ANSYS User's Manual Version 10.0, ANSYS Inc.
  - B. Periodical: Author, Year of Publication, Title, Name of Periodical, Volume, Number, Page Used.
    - (1) Herrmann, G., Jong, I. C., 1966, On Nonconservative Stability Problems of Elastic Systems with Slight Damping, ASME J. Appl. Mech., 32:4 592 ~ 597.
    - (2) Kounadis, A. N., 1992, On the Paradox of the Destabilizing Effect of Damping in Non-Conservative Systems, Int. J. Non-Linear Mech., 27 597 ~ 609.
  - C. Thesis: Author, Year of Submission, Title, Degree, Submitted Organization (College etc.), Country.
    - (1) Koh, B. K., 1995, A Top-Down Approach Design Methodology for Mechanical Systems with Bellows, A Thesis for a Doctorate, Hanyang University, Republic of Korea.
  - D. Patent: Author, Issued Year, Patent Name, Country's Patent Number.
    - (1) Darveaux, R., Islam, M. N., Singh, N., Suhling, J. C., 1986, Wide-Angle-Reflective Cube-corner Retroreflective Sheetting, US Patent: 4703999.
    - (2) Kim, G. H., Lee, S. K., 2006, A groove linear bushing shaft of the high-precision, KR Patent: 10-0665320-0000.
  - E. Standards: Organization or Standard, Issued Year, Standards Name (Italics), Standard Number, Issued Organization, Issued Location.
    - (1) ISO, 1982, Steels - Classification - Part 1: Classification of Steels into Unalloyed and Alloy Steels based on Chemical Composition, ISO 4948-1:1982, International Organization for Standardization, Geneva.
  - F. Website or other electronic material: Author or organization owning website, Published Year (If not specified, use n.d, - no date-), Read Date, Title of Article, <URL>.
    - (1) Weibel, S., 1995, viewed 7 January 1997, "Metadata: the foundations of resource description," D-lib Magazine, <http://www.dlib.org/weibel.html>. (electronic material or article)
    - (2) ASTEC, n.d., viewed 6 August 2007, <http://astec.gov.au/astec/net\_nation/contents.html>. (general website)
13. When submitting to the journal, submit an application online. Go to <http://article.ksmte.kr> and log-in, click on "Author" and "Submission" after reading the code of ethics, upload a Copyright Transfer Agreement pdf file and a paper pdf file. When submitting, a review fee should be charged.
14. A manuscript may be submitted any time, and the submitted date will be the date the manuscript is submitted to the society.
15. Any manuscripts not following the aforementioned guidelines should not be received.
16. Any manuscripts submitted will not be returned. Manuscripts passing the review should follow the society's copyright policy.
17. Manuscripts to be published in the journal will be determined by the opinions of the 3-person review board appointed by the editing council and the society's review policy.
18. If the manuscript is confirmed of publication following the final review, the author should upload the final copy in hwp or MS-word format to the society.
19. The author is allowed one edit during the printing process, and the responsibility of edit is solely upon the author.
20. The author is responsible for the fee upon publishing.
21. 30 copies of the offprint article should be given without charge to the author and additional copies may be requested with a fee charged to the author.
22. Journal articles (commentary, instructions, featured articles), conference and sector conference journal articles should also follow the aforementioned guidelines.
23. Other correspondences can be e-mailed to Min Sung Hong, editor, the Korean Society of Manufacturing Technology Engineers, Korean Society of Manufacturing Technology Engineers, A - 1206 Centreville Asterium Seoul, 372, Hangang-daero, Yongsan-gu, Seoul 140-170, Korea (E-mail : [master@ksmte.kr](mailto:master@ksmte.kr), Tel : +82-2-501-9172, Fax : +82-2-501-9173)
